Welcome
Introduction

Baca-Villa is an Organic Moringa producer and processor with the aim to improve human health, to reduce malnutrition, to valorize Cambodian’s herbs and to promote or raise awareness of the environmental, social, and economical sustainability to Cambodia society and to the world.

Baca-Villa grows Organic Moringa *Oleifera* in our own Organic Farm. As we have known the Moringa *Oleifera* tree is a miraculous tree, that’s why it’s an excellent natural Organic source of necessary nutrients and energy.
Together with our Organic Moringa trees, we’re growing another crops;
- Ginger
- Turmeric
- Ginger Finger Root
- Galangal
- Neem
- Lemongrass
- Kaffir Lime

Baca-Villa is committed to valorize the Organic raw products with the highest Quality and Safety to improve the producers’ life through the higher income and to satisfy the world market.
**Baca-Villa** is committed to supply the high quality products by adaption of Total Quality Management Systems and our goal is to satisfy our customer’s needs, through timely delivery, best value product, efficient and courteous service with superior quality.

- To reach the aims, we determine to the following targets:
  - Understand and respond to our customer’s specification and expectation
  - Supply defect-free products
  - Ensure the sustainable food safety and quality performance through implementation and certification of effective quality management systems compliant with NOP, EOS, JAS, to meet the customers’ and consumers’ requirements
  - Maintain and always strengthen quality systems that assures high quality product
  - Stringent Testing of products for conformance and verification in accordance with product specification and design
  - Develop a highly-trained and motivated workforce with full accountability and responsibility.
  - Encourage customer feedback to help continuous improvement of the quality of our products and their supply.
  - Communicate food safety requirements to suppliers, contractors, customers and consumers by establishing specifications for ingredients and packaging materials, product storage and consumer guidelines.
  - Set annual measurable food safety and quality objectives to ensure continuous improvement and compliance with all standards
  - Baca-Villa will ensure that this policy conforms to any relevant regulations or statutory requirements and will update policies and procedures in line with new legislation as necessary. All employees will adhere to procedures and systems laid down by the Quality Manual to maintain high standards of food and general safety within all stages of the operation.
Arrival of the Organic Moringa leaves

The Organic Moringa leaves with the Organic stem arrive from the farm by closed transport. After arrival a visual inspection will take place. If the visual inspection shows that there are no abnormalities the leaves go to the washing room.

Washing

The Organic Moringa leaves will be washed with clean water twice to remove dust and foreign material.

De-stemming

The Organic Moringa leaves will be removed from the stems by hand, and the stems are set aside for further processing.

Drying

The Organic Moringa leaves will be dried in dedicated dehydration machines at 55°C for 9 hours.
